INSTRUCTION FOR PET/CT SCAN  
(OUTPATIENTS)

Dear Patients:

Your appointment for a PET/CT Scan is scheduled for:

Date\_\_\_\_\_ Time\_\_\_\_\_

In order for the physician to gain the most information from this procedure it is important that you follow the instruction listed below:

A BUN and Creatinine Level must be obtained **within 30 days of your scheduled appointment** (this is done by a blood lab). Please have results faxed to 410-550-1264 as soon as possible. **Also** you must pick up two bottles of Radi-Cat from the Bayview Imaging Department.

**THE NIGHT BEFORE YOUR CT SCAN**

1. Drink one bottle of the Radi-Cat before you go to bed.
2. **DO NOT** eat, drink, smoke, or chew gum from Midnight until after your CT Scan is complete. Medication with small amounts of water is permissible.

**THE DAY OF YOUR CT SCAN**

1. Bring the 2<sup>nd</sup> bottle of Radi-Cat with you the morning of your scan.
2. Check in at the Imaging Department Reception desk 15 minutes prior to your scheduled time.
